SUMMARY

Experienced Full Stack Developer skilled in crafting responsive UIs and robust backends, adept at database management and deploying scalable applications.

WORK EXPERIENCE

Truffles.ai — Backend Developer   June 2024 - Present

- Developed OCR-enabled Email Processing Webhook using Google Cloud and Amazon Textract.
- Developed an advanced OpenAI assistant and a KYC role-based agent,

UNICORNIZ — Full Stack Developer   Dec 2023 - Feb 2024

- Improved backend with diverse authentication and error type checks.
- Executed frontend development with visually appealing designs, and implemented Excel and WhatsApp integration.

PROJECTS

HostelDaze   Link to Demo

- Developed a hostel room booking website tailored for efficient accommodation processes, capable of serving over 1000 students in a single hostel, with potential for global scalability.
- Implemented Next.js 13, offering a seamless user experience for both frontend and backend.

CrossGrain-v2   Link to Github

- Developed CrossGrain-v2, a platform aiding farmers in informed decision-making regarding crops and soil health through machine learning-driven predictions.
- Engineered a robust back-end using Node.js, Express.js, and MongoDB, ensuring efficient data processing and storage, coupled with a dynamic React.js front-end for an enhanced user experience.

EDUCATION

2021 - Present   BE at **Nitte Meenakshi Institute of Technology**   (GPA: 8.1/10.0)

ACHIEVEMENTS

2023/24	Internship	at prestigious 4 companies
2023	Winner	at GDSC Hackathon (CodeSprint)
2022/23	Intern/Freelancer	Worked with multiple startups
2022/23	2-time Winner	at Cryptec event
2023	GDSC MERN Lead	Supervised a team of tech members

SKILLS

Technical Skills	Next.js, React.js, Prisma, JavaScript, Node.js, MongoDB, MySQL .
Non-Technical Skills	Teamwork, Leadership, Public Speaking, Versatility, Problem Solving
